Clean Power: EMI/RFI / Surge Protection; Power Factor Correction; Harmonic Mitigation

Power Quality Products for IEEE-519 Compliance & Energy Savings

Comsys patented ADF Active Dynamic Filtering technology offers unparalleled harmonic compensation, voltage regulation and surge suppression, power factor correction and load balancing, oscillation, flicker and resonance mitigation assuring power quality compliance and prolonged equipment life / mitigate warranty issues.

www.comsys.se

EMI / RFI, Harmonic & Power Factory Correction Product Solutions

EMI/ RFI filters, Power Factor Correction, Motor Bearing Protection, surge arresters, voltage stabilizers, and customized solutions. In addition to EMC filter solutions, Enerdoor has built a global distribution and research and development network that provides flat rate on-site CE Certification required by IEC and EN Standards.

Submetering, Energy Management Products, Systems & Controls

Clamp-On Ultrasonic Water, Flow & BTU Energy Meters ★

Fixed, clamp-on, pipe mounted, ultrasonic flow meters, which deliver significant savings in installation cost & time. No pipe fitter or plumber needed. Sizes from 22mm – 180mm (1" to 6") OD. "Best Value" alternative to traditional inline energy meters, for management and cost allocation in facilities with shared heating and/or cooling systems.

www.micronicsflowmeters.com

Optergy + Energy / Building Management Systems ★

Optergy software that Integrates with BACnet & Modbus protocol devices to allow users to monitor, manage and control equipment within a building. With the ability to visualize and report utility and meter data in real time, users can view reports, alarms & energy data from a single tenant, building or a portfolio of buildings in real time.
